and II-CEPCLA-50107

Dear Jack:

Enclosed please find a copy of a letter addressed to you in your capacity as representative of the Duane Marine Steering Committee.

With this letter EPA is responding to your request for amendment of the three administrative orders named in the caption above. The amendment specifies March 15, 1986, as the date by which the removal work subject to the orders is to be completed.

We understand that the Committee has agreed to provide copies of this letter to its members who have committed to perform the removal work, and who have been contributing to the cleanup effort. EPA will mail a copy individually to each of the Respondents named in the three orders who has not committed to perform the work and as a consequence of failure to participate in the work effort is at present being considered a recalcitrant party by EPA.
